

COSMOS LAC means spray experts

Since 1982, we have been working towards the goal of making painting easier and more enjoyable.

Individuals who want to refresh their favourite furniture and decorative items as well as professionals who need to paint a variety of surfaces can find user-friendly, easy to apply, with low-odour and fast drying aerosols, as well as hundreds of various technical sprays in different colour shades and finishing types.

We have an extensive experience on developing and manufacturing innovative aerosol formulas for the DIY, graffiti, automotive, bicycle, and other industries.

We proudly export our products to over than 40 countries under the label "COSMOS LAC – MADE IN GREECE"
Behind our millions of cans travelling around the world, we see all the individuals, professionals, craftsmen, artists, decorators, people who rely on our expertise, and seek the joy of creativity.

SMART CAP PAINT LIKE A PRO

COSMOS LAC INNOVATION

8

Painting is now easier, faster, and more economical with the new SMART CAP, which offers excellent coverage and prevents over-spraying.

Until now, spray equipment manufacturers used high-tech nozzles only for automotive aerosols.

By including SMART CAP in its general industrial colour line, COSMOS LAC is making this cutting-edge technology available to ordinary users for the first time.

Spraying is now much wider and more linear than with a standard nozzle that sprays circularly and aggressively (spot spray).

9

Wide and linear spraying offers some significant advantages:

- **Ease of painting:** On a medium-sized surface, 25-30 quick movements would be required with a standard nozzle, while 8-10 are sufficient with the SMART CAP. Fewer movements mean fewer errors.
- **Fewer drips:** Because the spray is more stable and spreads over a wider width, there are fewer drips, which makes spray painting accessible to non-professional users.
- **Fast drying:** Drying time is reduced because the wider spray stream creates thinner layers that dry faster.
- **Better Coating:** Since the paint spreads evenly, surfaces get a smoother finish.
- **Vertical spraying:** By rotating the black nozzle of the injector, the user can now spray vertically. Surfaces such as columns, railings, table legs etc., can now be painted even more effectively than with a standard cap.

With the new nozzle, the user has more control over the spray, while at the same time the painting experience becomes smoother, more manageable, and precise.

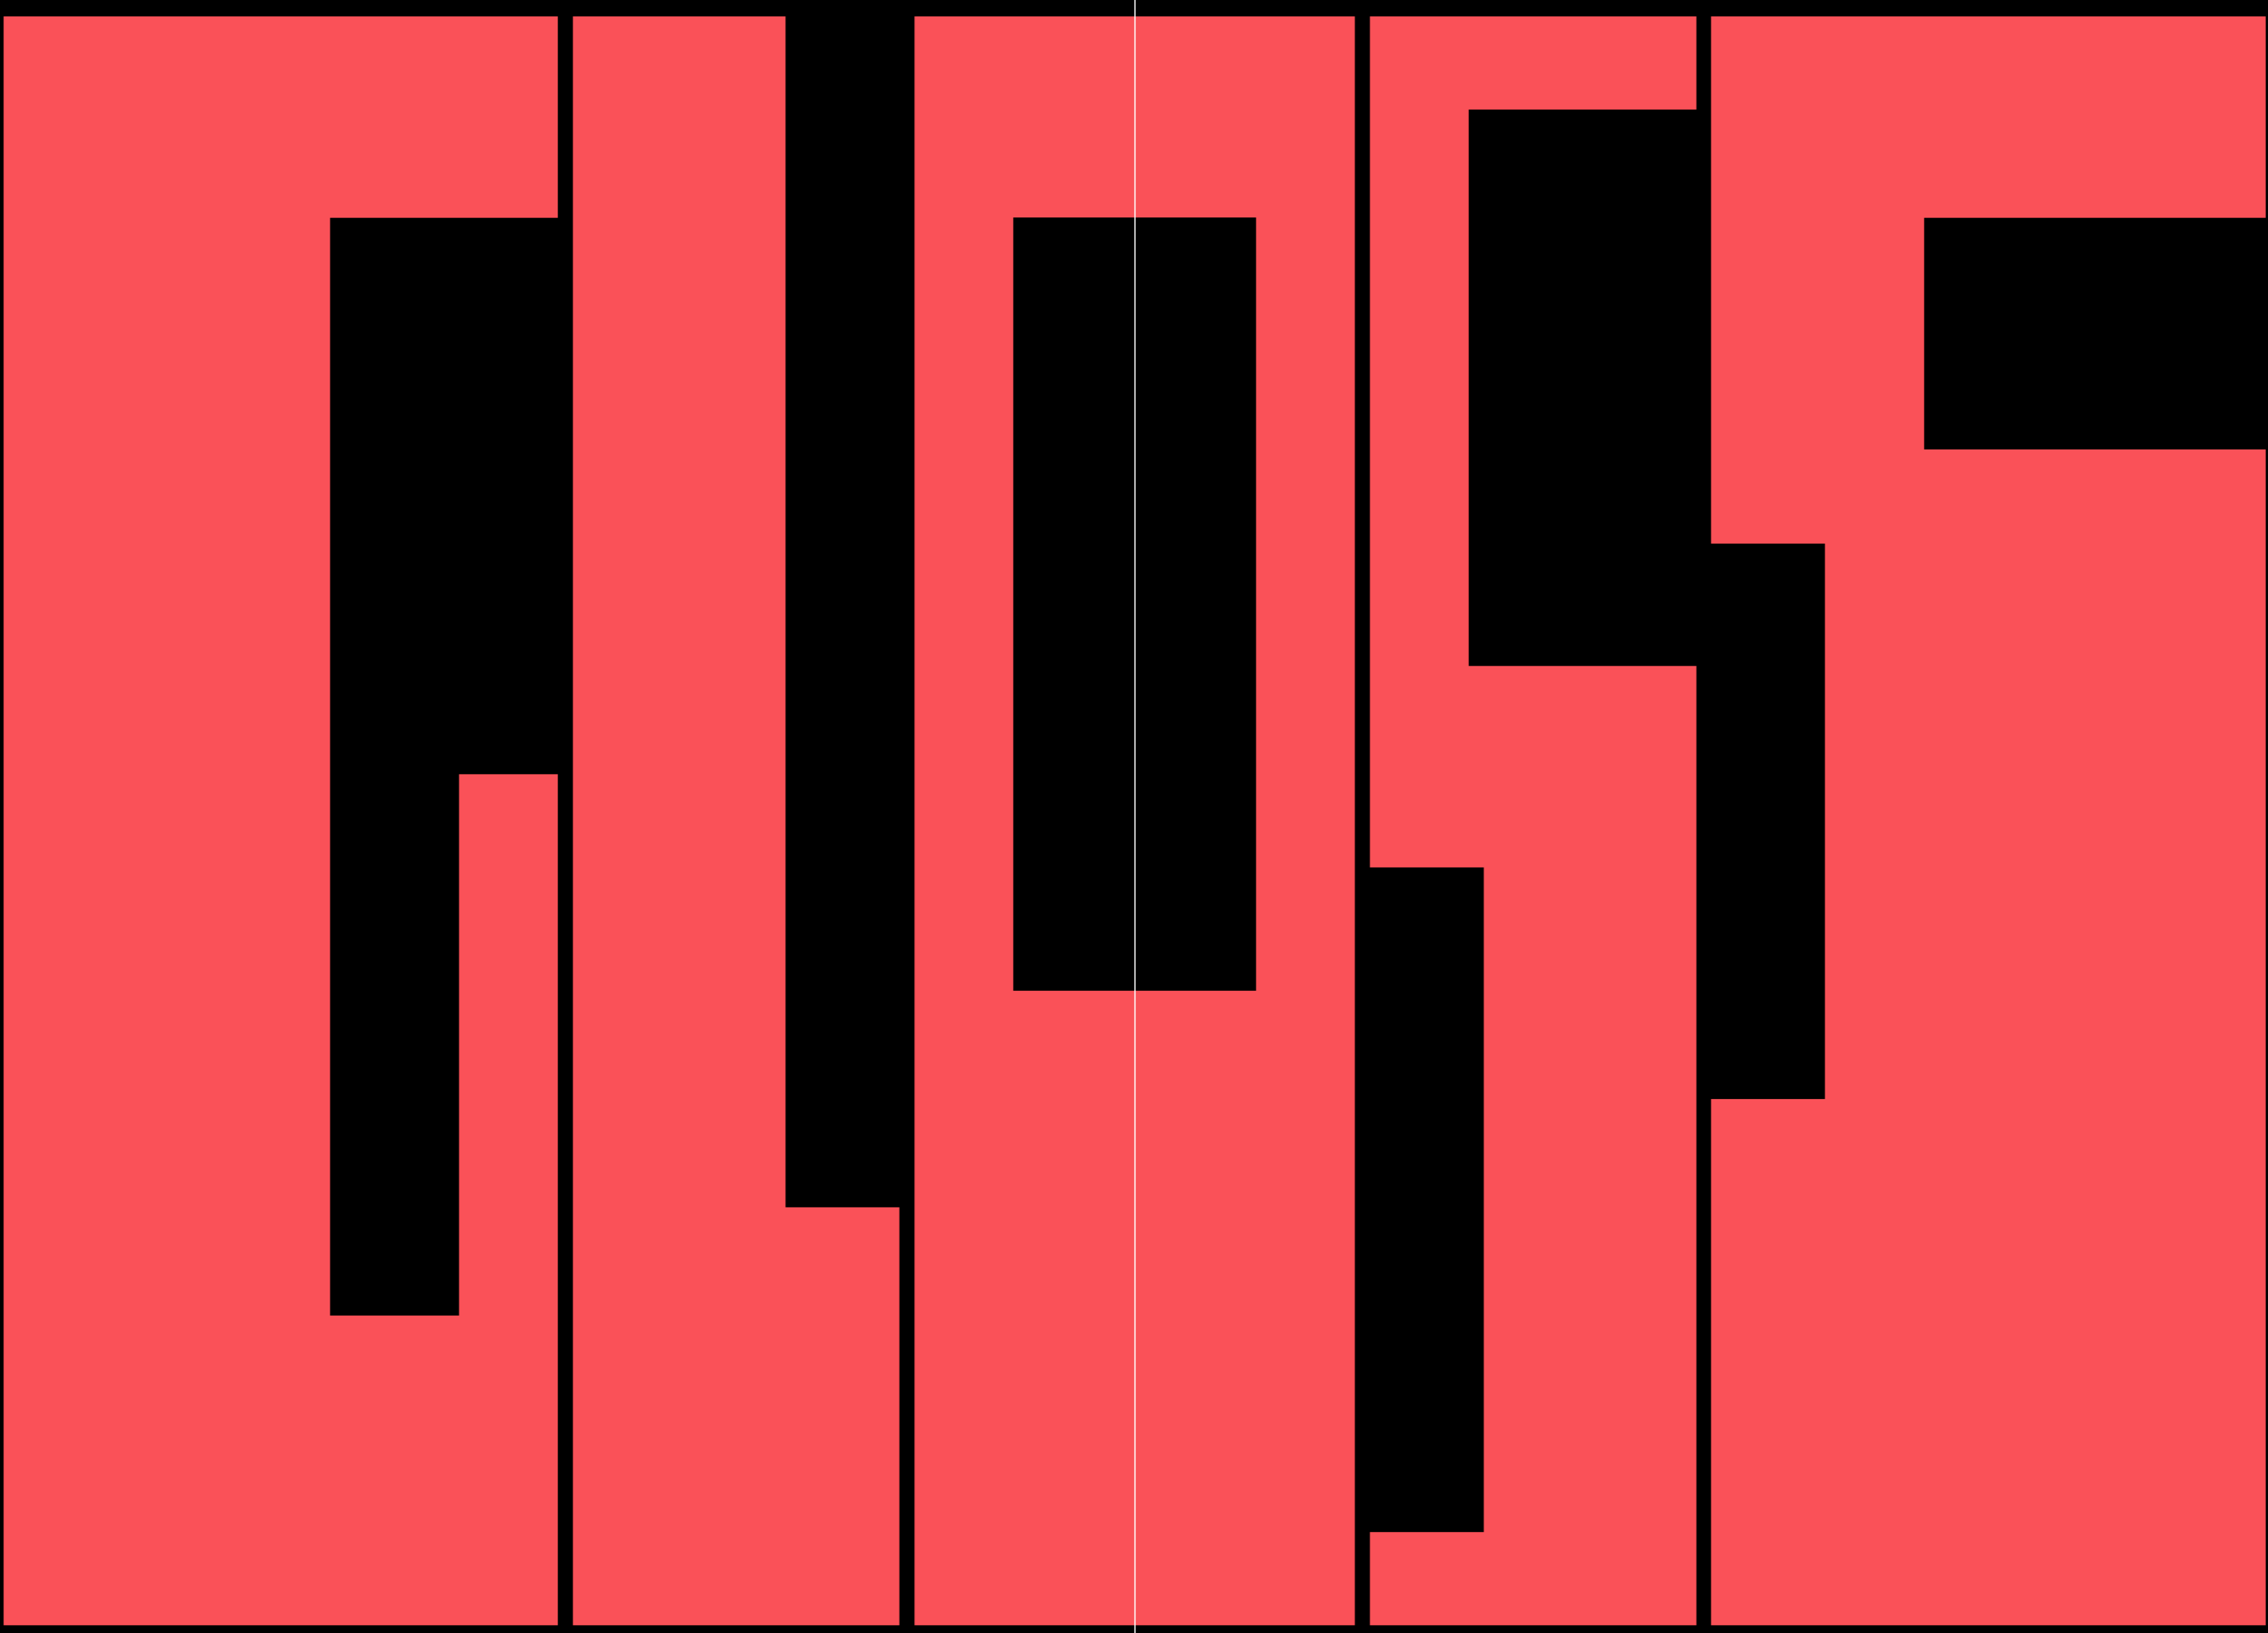

The COSMOS LAC RAL colour range and selected technical sprays are now available with SMART CAP. Find these products in our catalogue with the label "PAINT LIKE A PRO".

FAST ACRYLIC

Budget fast drying
acrylic paint line

COSMOS LAC's additional acrylic line is a versatile palette of glossy shades. It contains fast drying colours, with higher opacity and a better gloss effect compared to similar competitive products in the same category. High scratch resistance and excellent adhesion to almost all surfaces are some of the line's key advantages.

EASY MAX

Revolutionary
acrylic powder
line that changed
everything

100% acrylic spray paint that changed the spray market and became essential for every modern paint shop; EASY MAX line offers unique benefits for amateurs and professional users:

One-Coat Technology

Extreme coverage with one single coat.

Impressive satin finish

Creates a smooth finish that perfectly matches modern interior and exterior design trends.

New spraying technology

Valve and pressure technology provide an even, progressive, and comfortable spraying experience.

2 nozzles

One for details and soft lines and a second one for wide spraying, large areas and fast applications.

Performance

High-quality product that is almost odourless thanks to its composition of new generation propellants. Its performance reaches up to four square metres without the need for priming.

SPRAY.BIKE

The ground-breaking spray paint line for bicycles

COSMOS LAC has developed a ground-breaking spray colour line that turned painting bicycles into an artistic experience. Contains specially developed aerosol paints with a drip-free formula that can be applied perfectly even on the curved surfaces of the bicycle (e.g. frames). Unique formula suitable for aluminium, metal, and carbon fibre. Offers premium quality finish, withstands the rigours of daily use while at the same time protects from UV.

CHALK EFFECT

Ten new shades
of the ultra-matt
spray colour line
are now available

CHALK EFFECT spray colour line has an impressive matt finish and is an asset to any painting shop. Because chalk paints are difficult to cover, slow to dry, and require a protective coating due to their sensitivity to impact and moisture, they typically require extensive pre-treatment. CHALK EFFECT colours offer solution to the above matters. Provide strong coverage, dry quickly, rub easily to create perfect vintage effect and have excellent durability through time even without a varnish coat.

All sprays have an advanced nozzle system, one for large areas and one for soft lines and details. Ideal for painting furniture and decorative items, with excellent adhesion to wood, melamine, canvas, metal, glass and cardboard.

Shades: 24 + 1 Varnish
Content: 400ml
Package: 6 pcs

CHALK VARNISH

FLAME

One of the world's famous graffiti spray paint line is made in Greece

Graffiti sprays are among the most sophisticated and complex paint products on the market, due to the specific needs of artists. The Graffiti line FLAME is one of the most popular around the world, with innovations and high technical specifications.

FLAME is a reliable product line not only for artistic applications, but also for home usages, industry, and other areas which require the qualities of elevated paints. Its composition is based onto unique pigments with high coverage power.

The range offers 220 acrylic shades with high UV resistance. All FLAME products dry quickly and have special valves and nozzles for even and controlled spraying. These paints are ideal for detailed works because they allow for precise spraying while preventing overspray. Even when spraying from a very close distance, users have control over the flow without drippings.

HIGH HEAT 700°C

Top product trusted
by professionals

Specially formulated paint containing thermosetting silicone resins that makes surfaces resistant to high temperatures of up to 700°C and protects them from corrosion. Ideal for various applications, ranging from automotive to industrial and service maintenance sectors. Suitable for painting boilers, stoves, industrial plants, exhaust systems, and engines. When heated progressively to 250°C for 45 minutes after painting, the product reaches its maximum hardness and rust protection. Fumes may be produced during the process, so we recommend to heat the object for the first time outdoors.

PRIMERS

High-quality
anti-corrosion
substrates with
great adhesion
to every surface

PLASTIC PRIMER

Because plastic surfaces are the most difficult to paint, a primer coat is always recommended before colouring to achieve the best adhesion possible. PLASTIC PRIMER is a clear film with a formula developed specifically for this purpose. Suitable for a wide range of items, including plastic parts in automobiles, decorative objects, plastic garden furniture, etc.

Shades: Transparent
Content: 400ml
Package: 6 pcs

233

METAL PRIMER

Adheres well to metal surfaces, produces a perfect matt finish, and can also be used as a finishing colour. With excellent anti-corrosion properties, dries quickly, and can be painted after 24 hours.

VARNISHES

ACRYLIC VARNISH

Transparent acrylic varnish with one component, available in matt, satin, or gloss finishes. Ideal for protecting new coats or refreshing old ones. Evens out the surface, hides imperfections, and protects against moisture, UV radiation, and yellowing. Suitable for both indoor and outdoor use. Before applying varnish to freshly painted surfaces, allow them to dry from 24 to 48 hours depending on the thickness of the coating.

Finishes: Gloss, Matt & Satin
Content: 400ml
Package: 6 pcs

W - WATER BASED VARNISH

High-quality water-based varnish. Transparent film available in two different finishes: matt and satin. Outstanding product for finalising and protecting artistic and decorative works. Shields surfaces from UV radiation and yellowing. Safe to use on all chalk paints, painted and unpainted furniture, works of art, and surfaces made of wood, stone, ceramics, and paper. Ideal for indoor use due to its water-based consistency and low odour.

Finishes: Matt & Satin
Content: 400ml
Package: 6 pcs

METAL VARNISH

Glossy clearcoat that protects and shines unpainted or painted metal surfaces like bronze, copper, and tin. Provides consistent protection against corrosion, weathering, and UV radiation. Excellent choice for the final protective layer of automotive paints.

Finishes: Gloss
Content: 400ml
Package: 6 pcs

Transparent film for painted or unpainted, already varnished or unvarnished wooden surfaces. Available in two finishes, gloss and satin. Can be used to change or renew the final coating of wooden objects such as musical instruments. Compatible with all wood varnishes and gives surfaces a strong and flexible finish.

Finishes: Gloss & Satin
Content: 400ml
Package: 6 pcs

Series includes four semi-transparent coloured varnishes ideal for protecting and painting wood. Can be used on unpainted wood surfaces as well as to revitalise old varnishes. Exceptionally simple to apply to bamboo furniture, tiles, decorative objects, doors, frames, etc.

High-quality product offering absolute protection and durability

ZINC MAXIMUM

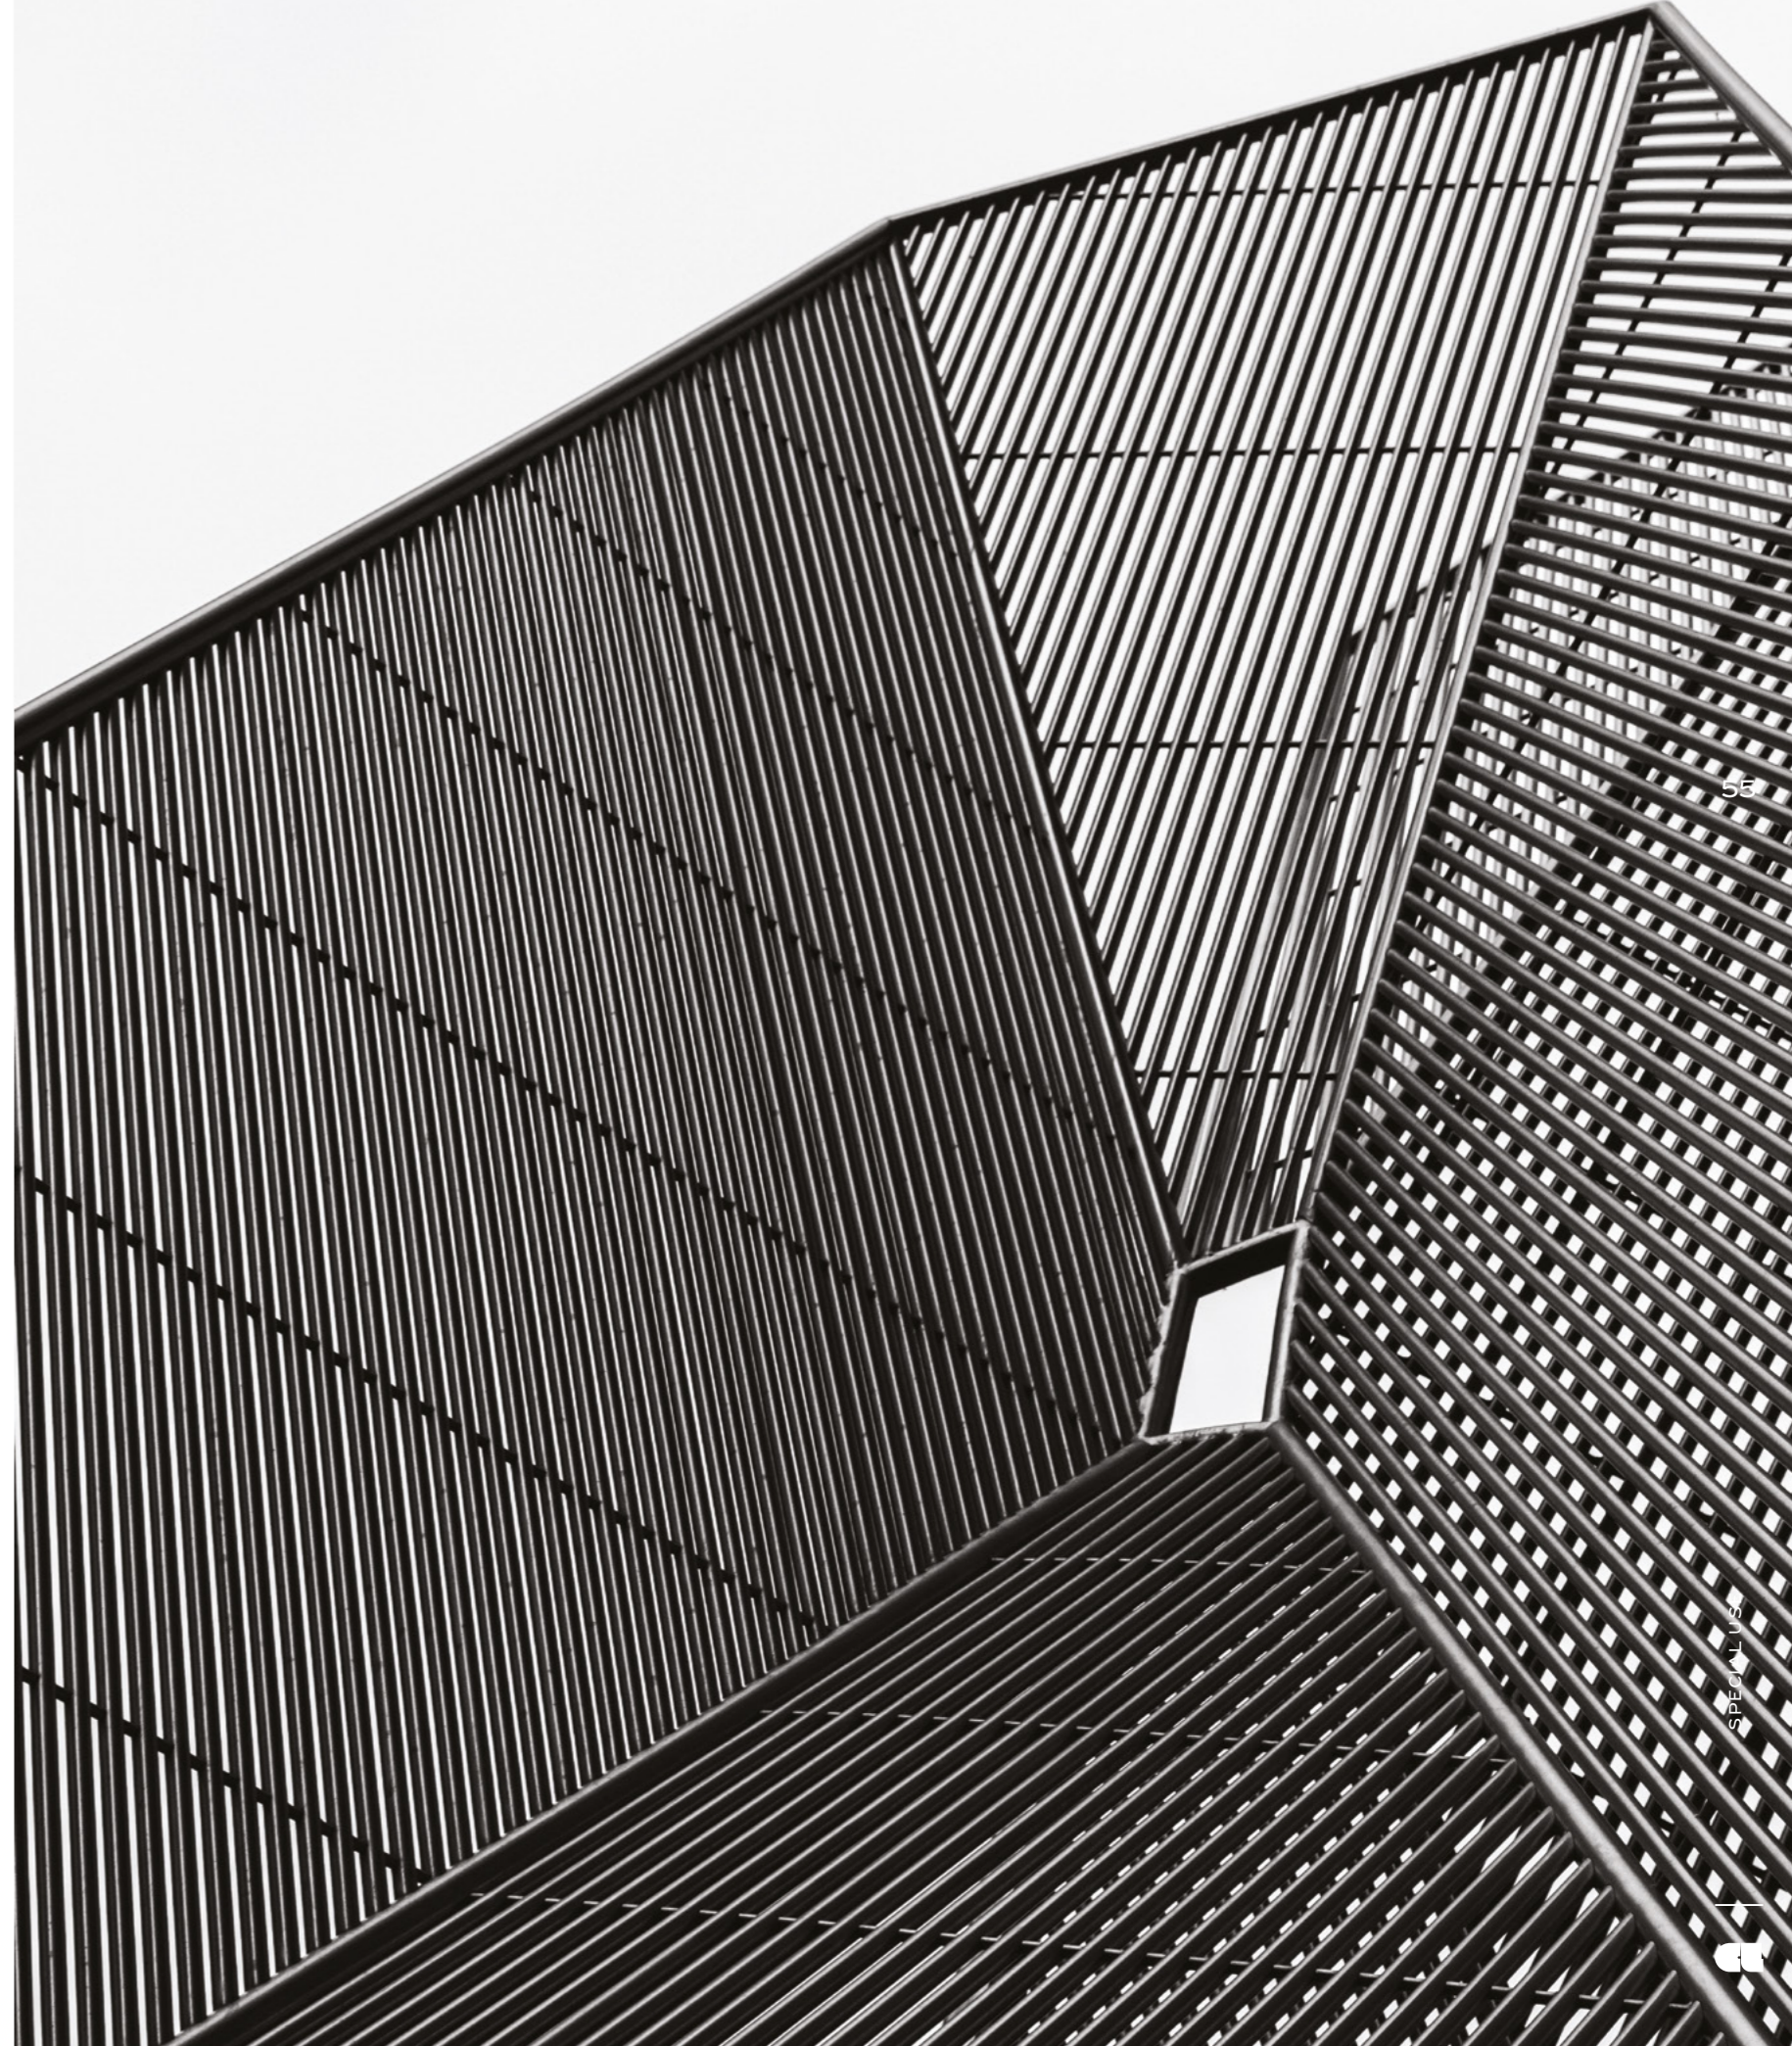

Special primer with high zinc composition that provides long-lasting protection against corrosion. Excellent adhesion to all types of metal surfaces (aluminium-galvanised - stainless - common metal alloys). Due to its excellent filling power, effectively covers micro-cracks and irregularities. Fast drying and maintains colour after 24 hours. Ideal for protecting welded surfaces, pipes, tanks and metal structures exposed to corrosive environments.

Content: 400ml
Package: 6 pcs

ZINC ALU

Special primer of lighter and brighter shade for anti-rust protection of metal constructions.

Content: 400ml
Package: 6 pcs

LUBRICANTS

Special lubricants
and greases
for industrial,
automotive,
and home use

PENETRATING OIL

High penetration lubricant that provides long lasting anti-corrosion protection for mechanisms. Use it to loosen frozen or rusted metal parts and reduce creaking.

Content: 400ml & 200ml
Package: 6 pcs

MULTIMAX 1000

The new generation of lubricants. Unlike other products in the same category, does not smell or leave stains. Easily penetrates any mechanism to remove moisture and provides strong anti-corrosion protection. Equipped with a patented smart nozzle that offers two spray modes. Ideal for stopping creaks, loosening rusty parts and blocked mechanisms.

Content: 400ml
Package: 12 pcs

PENETRATING OIL + PTFE

Lubricant enriched with Teflon for solid anti-rust protection. Forms a strong protective film on metal surfaces and penetrates even the most complex parts of mechanisms, keeping out moisture and dust. Effective over a wide temperature range from -20°C to 200°C. Offers excellent lubrication and protection to the moving parts of mechanisms, puts an end to creaking and extends their lifespan.

Content: 400ml
Package: 12 pcs

DRY PTFE OIL

Dry and transparent lubricant reinforced with Teflon that offers firm adhesion to materials such as plastics, elastomers, leather and others for which sticky oils are not suitable. Prevents dust accumulation by forming a protective film on surfaces, even at temperatures up to 300°C. Can be used on drive belts, flanges, windows, balcony doors, gears, rolling bearings and production lines.

Content: 400ml
Package: 12 pcs

CUT & DRILL OIL

Lubricant for tools such as electric drills, saws, etc. Suitable for most metals such as aluminium, brass and stainless steel. Reduces friction and resistance. Protects tools from overheating during operation, extends their lifespan providing antioxidant qualities.

Content: 400ml
Package: 12 pcs

SILICONE OIL

Silicone lubricant with multiple actions. Forms a transparent film, waterproofs and provides protection against rust. Revitalizes plastic surfaces exposed to the sun for a long time and prevents fading.

Content: 400ml
Package: 6 pcs

VASELINE SPRAY

Transparent petroleum jelly lubricant with strong adhesion to metals. Water, salt and acid resistant, protects against rust. Ideal for lubricating chrome parts on bicycles, motorcycles, cars, boats, etc.

Content: 400ml
Package: 12 pcs

LITHIUM GREASE

White lithium grease with excellent adhesion to metal surfaces as well as exceptional resistance to high temperatures and water. Protects against corrosion, moisture and dust. Suitable for lubrication and protection of a wide range of mechanisms used in home and industry, such as hinges and locks, pulleys, bonnets and trunk mechanisms, seat mechanism rails, rolling bearings, gears, door and garage rollers, etc.

Content: 400ml
Package: 12 pcs

LITHIUM GREASE + PTFE

White lithium grease enriched with Teflon. Offers greater resistant to rust, heat and chemicals than any conventional product. Provides long-term lubrication and is ideal for the moving parts of mechanisms, such as rolling bearings, auto axles, chains, hinges, etc. Suitable for "live" mechanisms that reach high temperatures.

Content: 400ml
Package: 12 pcs

COPPER GREASE 1100°C

Premium quality grease enhanced with copper. Ideal for surfaces that withstand high temperatures. Acts preventively against rust and mechanisms blocking, even under high pressure as well as temperatures from -40°C up to + 1100°C. An excellent choice for exhaust pipes, turbines, gaskets, engines, pistons and battery terminals.

Content: 400ml
Package: 12 pcs

CHAIN GREASE

Adhesive grease for lubrication and protection of chains and gears. It is ideal for motorcycle and bicycle mechanisms. Weather resistant and stable even at very high temperatures.

Content: 400ml
Package: 12 pcs

RUST SHOCK FREEZE PENETRATING OIL

Fast cooling lubricant (down to -40°C) removes rust and helps to restart blocked mechanisms. Easily applied to tools such as screws, nuts, locks and bolts and breaks up layers of rust.

Content: 400ml
Package: 12 pcs

749

LEAK DETECTOR

Special spray for detecting gas leaks. Thanks to its unique formatting, bubbles are created at the leak points, allowing immediate detection. Non-toxic, non-flammable, colourless and odourless product designed for compressed gas systems (solar, nitrogen, etc.). Can be used for iron, copper or plastic pipes - must be washed off after use.

Content: 500ml
Package: 12 pcs

748

Tech sprays for renewing and protecting cars

BUMPER PAINT

Special spray paints for bumpers and hard plastic surfaces with excellent adhesion. Bumpers are now protected even on gravel roads. Fast drying colours with a matt finish that lasts. The new SMART CAP is ideal for bumper spray paints.

Shades: 4
Content: 400ml
Package: 6 pcs

BUMPER PAINT STRUCTURE

Special bumper spray paint that creates a textured surface. Adheres firmly to rigid plastics without primer. Impact and weather resistant product.

Shades: 1
Content: 400ml
Package: 6 pcs

ANTICHIP

Tar spray with a unique formula of protective synthetic resins and sound-absorbing elastomer rubber for car's underbody protection. Dries quickly, creates a textured surface and protects from salts, bumps, and moisture.

Shades: 3
Content: 400ml
Package: 6 pcs

BRAKE CALIPER & ENGINE PAINT

Spray paint specially developed for brake callipers with an excellent glossy finish. Resistant to high temperatures, does not break or fade, dries quickly and acts protectively against rust.

Shades: 3
Content: 400ml
Package: 6 pcs

BACKLIGHT

Semi-transparent spray paint for car taillights with excellent adhesion. Fast drying, very resistant to scratches and impacts, creates a unique shiny effect on the surfaces.

High-quality automotive sprays for professionals and hobbyists

PREFILLED SPRAY

Gas and solvent prefilled spray for car paint professionals.

Content: 400ml
Package: 6 pcs

VINYL & FABRIC

A superior quality black spray paint for special applications. Suitable for artificial leather and flexible plastic parts. Highly resistant to abrasion and scratches. Ideal for car dashboards, rims, bicycle and motorcycle seats, etc.

Shades: 1
Content: 400ml
Package: 6 pcs

WHEEL RIM

Paints with
impressive finish
that protect the
vehicle rims

WHEEL RIM ALUMINIUM

The most popular rim spray paint for professionals and amateurs and one of the best-selling products of COSMOS LAC. Offers to surfaces excellent resistance to scratches –even on gravel roads– chemicals, high temperatures and rust. Fast drying, giving the rims a shiny finish.

Shades: 1
Content: 400ml
Package: 6 pcs

326 ALUMINIUM

WHEEL RIM DIAMOND

Two new colours that combine the durability of the standard spray paint for wheel rims with an incredible metallic effect while, at the same time, remaining resilient to the daily stresses.

Shades: 2
Content: 400ml
Package: 6 pcs

327 BLACK DIAMOND

328 SILVER DIAMOND

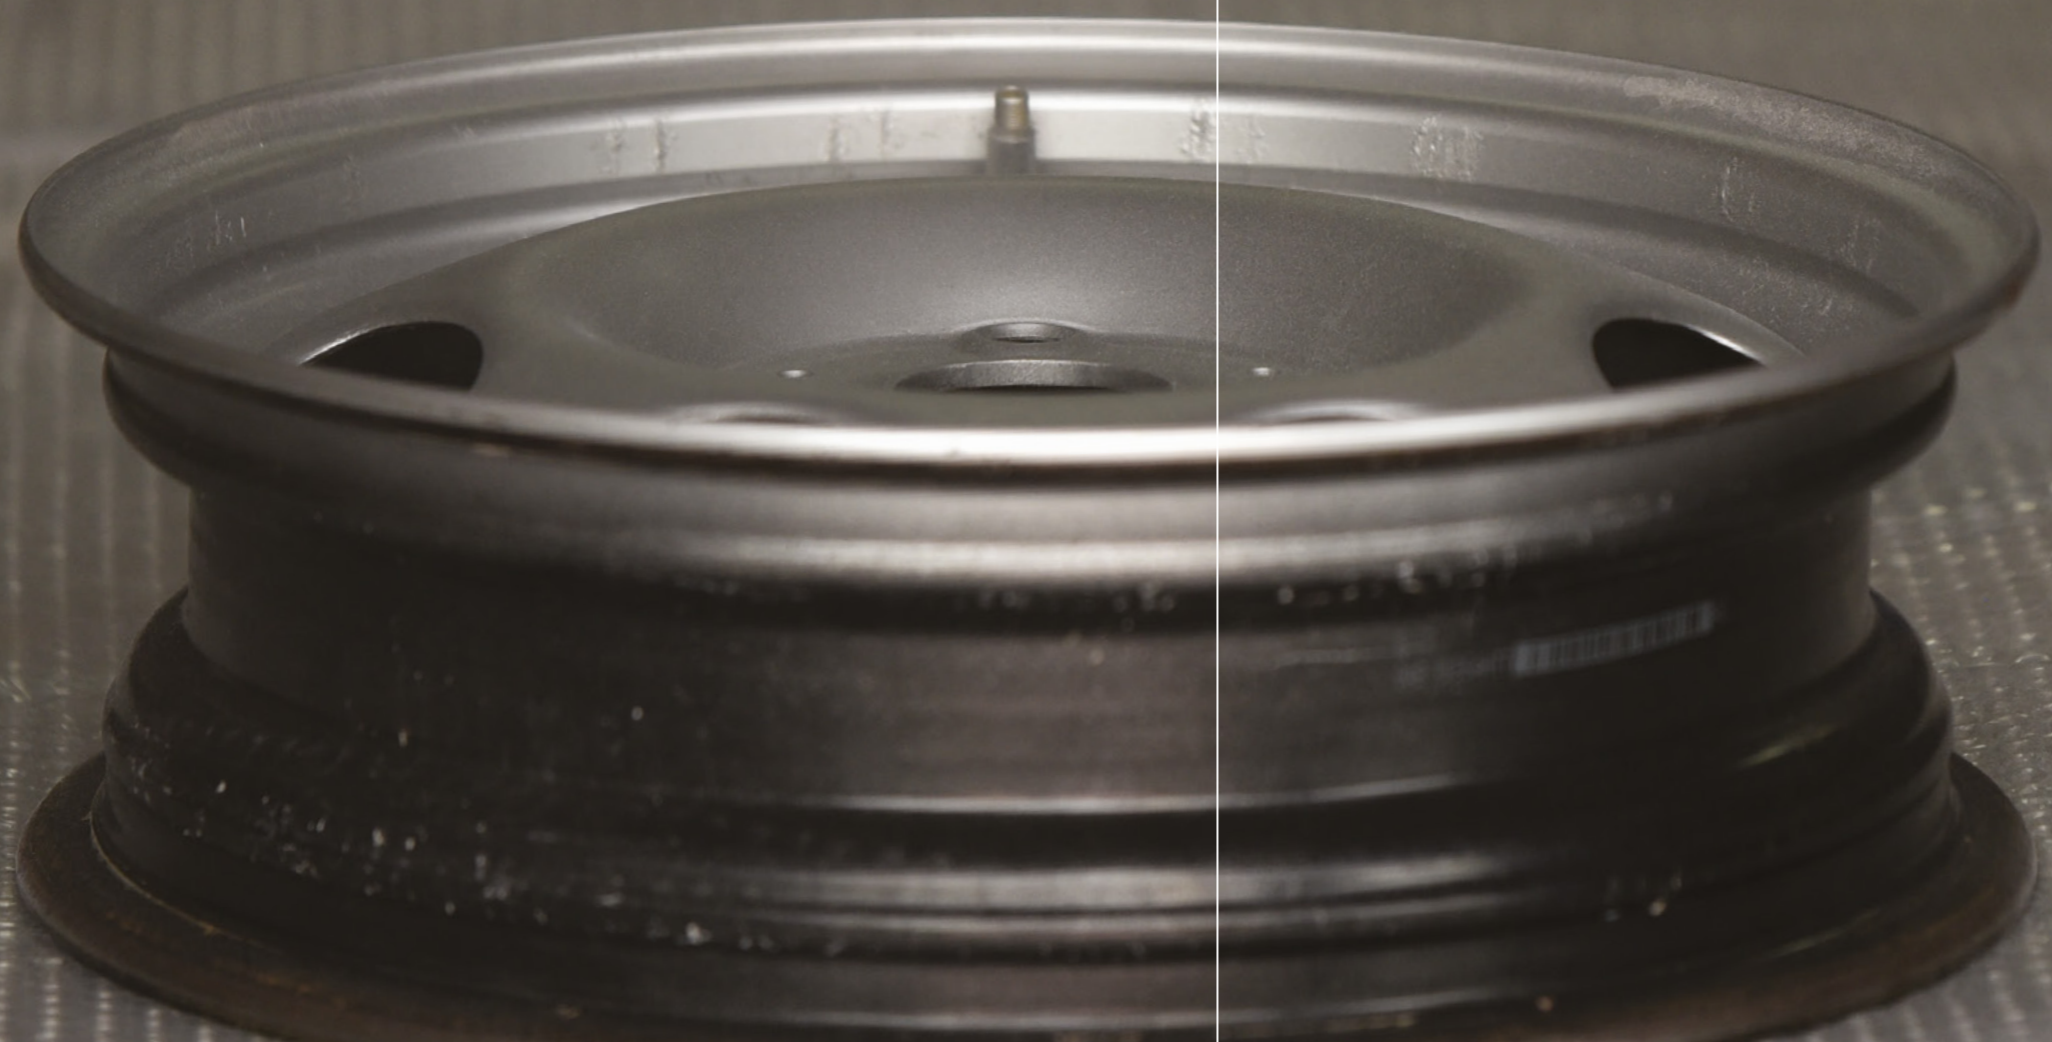

DELUXE MATTE

Special matt metallic paint for rims that offers great finish and rust protection. Thanks to its special formula, the surfaces gain high resistance to scratches, gravel and other stresses of daily use.

Shades: 1
Content: 500ml
Package: 6 pcs

229 SILVER MATT

PAINT FOR ALUMINUMS

Dedicated aerosol for aluminums offers a white shade finely tuned to the electrostatic colour of aluminium structures. Ideal for painted or unpainted surfaces.

Shades: 1
Content: 400ml
Package: 6 pcs

WHITE SMALTO

Specially formulated spray paint formula with acrylic resins; provides excellent adhesion, high coverage, shine and durability. Ideal for refreshing the home's white electrical appliances such as refrigerators, boilers, washing machines, hoods, etc. Suitable for painted or unpainted surfaces.

Shades: 1
Content: 400ml
Package: 6 pcs

PORCELAIN PAINT

Innovative white spray paint for freshening up household sanitary equipment, such as tubs, toilets, sinks, etc. Gives shine to surfaces and is ideal for touching up worn parts.

Shades: 1
Content: 400ml
Package: 6 pcs

RADIATOR LAQUER

Heat resistant paint (up to 110°C) with anti-yellowing action. Fast drying, corrosion resistant paint that easily covers scratches. Ideal for painted or unpainted surfaces.

Shades: 2
Content: 400ml
Package: 6 pcs

POWER GLUE

Glue spray is a strong multi-purpose product suitable for all types of surfaces, such as fabrics, carpets, foams, ceramics, paper, wood, glass and plastic.

Shades: Transparent
Content: 400ml
Package: 6 pcs

CLEANERS

Sprays that
protect and extend
mechanisms' life

BRAKE & ENGINE CLEANER

Special cleaning formula for removing grease, dirt and dust from brakes, clutch and engine parts of vehicles. The ultimate choice for professionals –leaves no residue and has very low odour.

Content: 400ml
Package: 6 pcs

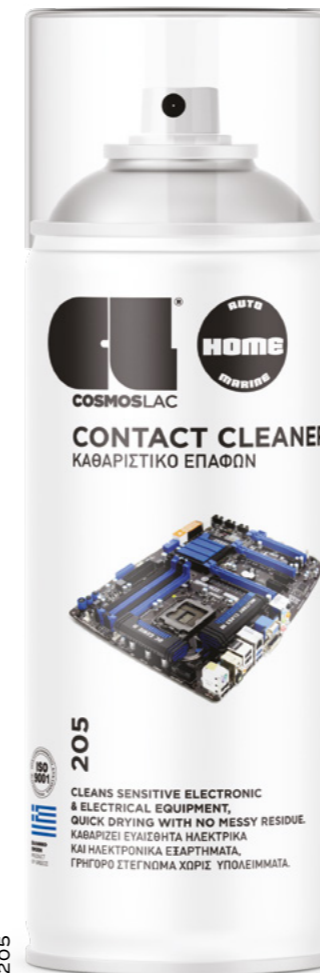

721

CONTACT CLEANER

High quality, colourless, oil-free cleaning spray for electrical and electronic components. Removes traces of oil, dust and finger marks. Do not use onto already operating mechanisms.

Content: 400ml
Package: 6 pcs

205

AIR DUSTER

Special formula of refined propellants. Effortlessly removes dust from even the most inaccessible parts of equipment, where conventional liquid cleaners and cleaning wipes cannot reach. Suitable for keyboards, laptops, printers, photocopiers, telephones, etc. Does not attack sensitive parts of mechanisms and can be used without hesitation on metal and plastic surfaces.

Content: 400ml
Package: 12 pcs

732

PAINT REMOVER

A special formula for removing old varnishes and paints. Also suitable for the safe removal of stickers and other adhesive material from surfaces. Almost odourless and free of methylene chloride.

Content: 400ml
Package: 12 pcs

733

EFFECT

Impressive shine
paint effects for
indoor decorative
applications

EFFECT

Gold and chrome paint effects that offer impressive shine to surfaces. Ideal for decorative hobby and craft applications. Fast drying and highly resistant to heat (up to 150°C). Not recommended to use onto surfaces that receive friction. Effect colours are highly recommended only for indoor decorative applications and don't require varnish.

Available in two formats:

SPRAY

Shades: 2
Content: 400ml & 200ml
Package: 6 pcs (400ml)
12 pcs (200ml)

CONTAINER

Shades: 2
Content: 185ml
Package: 12 pcs

METALLIC EFFECT

Impressive
and durable
colour effects

Metallic paints with excellent adhesion and time resistance. Fast - drying, fade and chip resistant, suitable for motorcycle parts, helmets, and other items. Ideal for indoor and outdoor applications.
